Vice President for Student Life

Policy statement

Nebraska Wesleyan cares deeply about students' physical and mental health and provides services to support students. Some students may experience such extreme health conditions that their ability to function successfully and/or safely as students is significantly impaired. In the most extreme emergency circumstances the University may take action for the welfare of the individual student and the community, including but not limited to contacting emergency medical services or removing a student from a residential or academic context. Information is available upon request from the Office of Student Life.
